The only Perfect Cheque Protector ever made.

IN view of the many cases of cheque raising which have occurred, even when punched with expensive machines, a demand has arisen for some method for the perfect protection of all papers having a monetary value and at a price within the reach of all. To meet this demand the **INDELIBLE CHEQUE PERFORATOR** has been placed on the market. It is the only machine that perforates and inks the holes through the fibre of the paper with an *indelible acid-proof* ink, which absolutely prevents any changes of figures.

THE INDELIBLE CHEQUE PERFORATOR is the smallest, simplest, best and cheapest machine ever devised for the purpose, and is endorsed by Banks, Insurance Companies, other leading corporations and firms, who realize the value of absolute protection of cheques, drafts, money orders and all other negotiable papers.
